Message From Founder

Shri Sudhir Madhavji Lall
Founder

Universal Education was founded by the guiding spirit of our patriarch, Shri Sudhir Madhavji Lall, who laid the foundations of Universal Education in 1968 and built it from scratch into one of Mumbai's largest and most reputed private educational institutions. He was a visionary of great ideals but retained a lifestyle of simplicity. He conducted himself with total dignity and impartiality. His values, vision and goals were simple to lead by love, by trust, and by example. During his professional career, Shri Lall championed many causes, but none so fiercely as educational reforms. Unfortunately, he left for heavenly abode on the 1st September 2002. His son, the Chairman of the institute, Shri Jesus Lall, since then strengthened Universal Education, has transformed it and ensured its growth in keeping with his father's dreams.

Alumni Speak!

Today, we celebrate not just our academic achievements, but our commitment to a noble profession – education. As D.Ed. graduates, we embark on a journey to shape young minds, the future of our nation.

Standing here today as the topper of our batch is truly humbling. This achievement wouldn't have been possible without the dedication of our faculty, the unwavering support of my Principal, Professors and friends.

I'd like to express my sincere gratitude to all our professors for their guidance and mentorship throughout this journey. They instilled in us a passion for teaching and equipped us with the necessary knowledge and skills to excel in this noble profession.

The day I became the part of St. John's teachers training school, Our principal never failed to motivate us.

His positive approach towards the students brought us here where I can proudly say 'I am the first ranker of St. John's family'.

Thank you.

Alumni Speak!

“Never doubt that you are valuable and powerful and deserving of every chance in the world to pursue your dreams.” - Secretary Clinton

To add these wise words, let me say, for being a first ranker of any degree course, can happen only if you never doubt that you're durable. You are valuable. You are rare and unique. Let yourself be flawed. Go proudly and confidently into the world with your blinding hues to show everyone who's boss and break every glass ceiling that still remains.

The day when I become the part of St. John's Teachers Training School, Our Principal once said, “Never fear failure or the unknown; always challenge yourself to do great things. Always grasp great opportunities even if you don't know what you're doing; this discovery is where the adventure lies.”

These words have changed the way of my thinking I started feeling motivated. Blessed by all our instructors for their perseverance through these trying times. According to them, We're all in this together, as the students, “who never quit”.

Not only that, we have completed our online internship also .In these 2 years my personality got really changed to a positive outlook & confident. First of all I would like to thank the Institute for giving me admission in this college. When I entered in the college I was a very different person. I was a very shy and quite person. I was a not very confident person. I was not able to stand in front of the audience and say few lines because I was having stage fear. In my schooling I was not given an opportunity in any of the activities. But in this college, here all the students are given opportunity. I also remember my first demo, i was shivering to come in front of the students and start my demo but the teachers encouraged us, and that was my stepping stone to success. From that day onwards I started gaining confidence in me. I thank you all to provide different opportunities to me. It has changed my life, If I compare myself on the first day when I entered in the college and now. I am totally a different person now, a confident and independent person. I owe all this to my institution and to my dear teacher, who has helped to change my personality in my personal & professional life.

Batch 2015-2017.

"Mumma,I want to be a teacher!", said the ten year old me. Growing up I have always been nervous about my appearance when it came to participate in the activities arranged by my school. Thus stepping into a career where hundreds of eyes will be focus on me was not exactly what a ten year old had thought. But ST. JOHN'S TEACHER TRAINING COLLEGE and it's staff changed my entire personality. My training period as a teacher was nourished by a soul hugging atmosphere created by friend like teachers. The college provided ample of opportunities to build a character that I am proud of today. It introduced a new kind of competitive spirit which was flavoured with love, care and encouragement. The different celebrations organized in the college gave us the opportunity to bloom in our respective abilities creating a bridge between us and the society. I invite you to come and hug yourself with opportunities that will help you to explore your limits and spread your wings to fly high.
